11:30 "	29.65	72°	N. E. 4	Cloudy	
4 P. M.	29.61	72°	N. E. 4	Cloudy	
7 P. M.	29.60	71°	N. E. 6	Cloudy	

Maximum Thermometer 91°. Minimum 70°.
S. F. Rogers, Sergeant Signal Corps U. S. Army.

INDICATIONS: For Tennessee and the Ohio Valley, partly cloudy weather and areas of rains, warmer east to south winds, and slight changes in the barometer.

HENRY CAREY BAIRD was unanimously nominated by the Greenbackers of Pennsylvania the other day for State Treasurer. At 6 p. m. the same day he sent them a telegram unanimously declining the honor.

THE New York Herald of the 16th inst. says:
"So little moment are our politics just now, that probably the best thing which could happen to the country would be to keep Mr. Hayes in the White House for another four years, and tell him to go ahead in the same tranquil and quiet way in which he has so far conducted his administration."

WHEREVER the repudiationist element prevails, the vote against the 50-4 proposition will be strong. The repudiationists will all vote against it. There are scores of persons who honestly and conscientiously believe that the proposition is not what it should be, but it seems to us that they ought to array themselves against the repudiationists by voting for it. It will do no harm, and may result in great good.

GEN. W. G. BRIEN, of Nashville, and Gen. Charles D. Porter, of Paris, will speak at the following times and places in East Tennessee, in favor of the 50-4 compromise:

Bristol, Monday, July 31.
Johnson City, Tuesday, July 22.
Jonesboro, Wednesday, July 23.
Greeneville, Thursday, July 24.
Morristown, Friday, July 25.
Knoxville, Saturday, July 26.
Maryville, Monday, July 28.
London, Friday, Aug. 1.
Athens, Saturday, Aug. 2.
Cleveland, Monday, Aug. 4.
Chattanooga, Tuesday, Aug. 5.

The Sanitary Condition of Chattanooga.

The true and manly devotion of Mayor Jesse T. Hill to the city of Chattanooga and the best interests of her people causes her to speak of the present condition of that city and her future prospects. A reporter of the Constitution had a short conversation with Mayor Hill a few days since relative to the present condition of the city. Mr. Hill says that the sanitary condition of the city is better this year than it was last, and a good deal better than it ever was before. The streets are cleaner, and are being kept clean by a force of hands and a number of scavenger carts that are kept going every day. Mr. Hill says that Chattanooga has a natural drainage that is sufficient to keep the city well drained and in a healthy condition. In addition to this, the sum of \$10,000 has been appropriated for the purpose of building a main sewer, which has been greatly needed for some years past. Mr. Hill says that the health of Chattanooga is very good at present, and that he apprehends no change. He also states that according to the statistics recently published, the death rate of Chattanooga stands next to Knoxville, which is the lowest.—Atlanta Constitution.

TELEGRAPHIC.

LATEST FROM MEMPHIS.

Yellow Fever Still Spreading.

And is Now Considered Dangerously Infectious.

The Exodus of Citizens Still Going On.

A Prominent Railroad Official is Down With It.

YELLOW FEVER.

WASHINGTON, July 19.—A telegram from Dr. Mitchell, at Memphis, received at the National Board of Health last night, declares the city to be dangerously infected. Another telegram received at noon to-day reports six new cases and the disease spreading.

MEMPHIS, July 19.—Three new cases of yellow fever were reported to the Board of Health this morning; Laura T. and Viola Godsey, two sisters, residing at 48 Bradford street, and Tom Kernan, Passenger Agent of the Memphis and Charleston Railroad.

The illness of the Godsey sisters can be traced to infection from the Tobin family. The young ladies were in attendance upon Mrs. Tobin until her case was pronounced yellow fever.

These cases dispel the sporadic theory. Hiram Athy, son of Chief Police Athy, is dying, although his case had not yet been reported to the Board of Health as yellow fever. The Chief's residence is in the neighborhood of Tobin's dwelling, as is also Tom Kernan's.

The report of the death of Fred. Eckers was premature. He is living, but lies in an extremely critical condition. The weather is warm and sultry, with occasional showers. The development of new cases has given a fresh impetus to the exodus of citizens.

WASHINGTON.

WASHINGTON, D. C., July 18.—In the Cabinet meeting to-day the only subject of importance discussed was a request of the National Board of Health that the officers of the Navy be detailed to foreign countries where yellow fever is known to exist for the purpose of examining all vessels bound to the United States, and issuing clean bills of health to such as are free from infection. The question which arose was whether the clause authorizing such examinations in the act incorporating the National Board of Health was mandatory or not. No decision was arrived at, but the opinion of the Cabinet members present seemed to be that it would be unjust to detail either army or navy officers for such service at foreign yellow fever ports unless they voluntarily offered to go.

Mail Superintendent Terrill, of Atlanta, Ga., in a telegram to the General Superintendent of Railway Mail Service to-day, said: "All Messengers between Memphis and Vicksburg have allowed themselves to be quarantined at Memphis, and will not be permitted to perform service. Boats are running regularly between St. Louis and Vicksburg, but make no stops at Memphis."

From information obtained at the Executive Mansion to-day, there is no doubt of the correctness of the assertion heretofore published in regard to the successor of Secretary McCrary. Ex-Senator Ramsey, of Minnesota, has been tendered the office and has accepted.

WASHINGTON, July 19.—Upon inquiry at the rooms of the National Board of Health this evening, regarding the rigid quarantine declared against New Orleans by Galveston, it was stated by Secretary Turner that the request received by the Treasury Department for placing the customs officer outside of the city of Galveston, had been referred to the Board, but they contend that they have no jurisdiction in the matter of Galveston quarantine, in consequence of the non-acceptance of Texas of the rules and regulations prescribed by the Board. The Health Officer of the State of Texas, they say, does not approve of the course being pursued by Galveston.

The States which have accepted the rules mentioned are Louisiana, Mississippi, Tennessee, and New Jersey. The rules have been forwarded to several States for the purpose, if necessary, of securing the speedy execution of the provision in the act of June 3rd, 1879, requiring the National Board of Health to co-operate with, and so far as it lawfully may, aid the State and municipal Board of Health in the execution and enforcement of the rules and regulations of such Board to prevent the introduction of infectious and contagious diseases into the United States or from one State into another.

The Treasury Department has revoked an order prohibiting the importation of meat cattle from England. The Secretary has officially determined that such importation will not tend to the introduction or spread of contagious or infectious diseases among the cattle of the United States, provided that all meat cattle from any portion of Europe, arriving in any part of the United States, shall be kept in quarantine for not less than ninety days under the direction of the customs officer, and at the expense of the parties interested, except when the State or municipal laws provide for the quarantine of such cattle in such cases, the Collector will permit the proper officer to quarantine them in such manner as the State or municipal authorities require. The Department will, upon application, consider the special cases where it may be claimed during such quarantine that cattle were from entirely healthy localities direct to the United States, and will decide on such cases whether they may be delivered at the period shorter than ninety days, as before mentioned.

NEW YORK.

NEW YORK, July 19.—Hon. Stephen Preston, a Minister of Hayti to this country, received a cable dispatch from Port au Prince, as late as the 15th inst., informing him of the condition of political affairs in the Haytian Republic. Quiet had already been restored at Port au Prince, but at the cost of a considerable number of lives on both sides. The fighting in that city lasted four days and was carried on in the streets and from house to house. A fire that broke out destroyed seventy houses, but the commercial portion of the city was not injured. Among the killed were Minister of War Francois and Ex-Minister of War, Montas, Col. August Bozelais, of the militia, Judge George Bozelais, of the Supreme Court, B. Bozelais, E. Paul, H. Price, and other prominent politicians. Three members from Port au Prince took refuge at foreign consulates. On the north side of the Republic fighting was still going on, between the towns of Gonaives and St. Marc.

A Quebec special says that a yacht containing fifteen persons capsized at Point aux Trembles during a squall yesterday. Eight of the party were drowned; their names are Mrs. Octave Delisle, wife of the yacht owner; Miss Emile Larne, a wealthy young lady and a daughter of Seigneur of Point aux Trembles; Louis Lefebvre, Principal of an Academy at Point aux Trembles, who leaves a widow and four children, and his son, a lad of fourteen, Louis Gaven, Xavier Garneal, Ferdinand Blais, sailing master of the yacht, and Dr. Ernest Delisle, village physician, who leaves a widow and two children. The body of Lefebvre was recovered floating on the water. All the other bodies are gone to the bottom, and may be washed to sea. The yacht turned completely over. A steamer and several small boats went to the rescue, but could only save seven of the fifteen who were aboard.

Ebrich Eichman, a waiter taken from the steamship City of Merida, which arrived from Mexican ports last Monday, died in the quarantine hospital on Swinburne Island, yesterday, from yellow fever. This is the second death from the dreaded disease at that hospital within a short time. About eight other sufferers are at the hospital, but it is thought all will recover. No new cases reported either yesterday or to-day.

Judge Noah Davis this morning granted a writ of error in the case of Christine Cox, convicted of the murder of Mrs. Hull, which was taken before Judge Potter, who thereupon granted a stay of proceedings in the case.

ALBANY, N. Y., July 19.—An explosion took place on the steamer Drew last night, while on the way from New York to this city. Several cans of powder had been placed in the state-room and a fuse

attached to each. The state-room was shattered, and the wood-work in the vicinity of the explosion was badly damaged, but, fortunately, no one was injured. The lights were all extinguished, and there was the wildest excitement for a few moments. A man, who gave his name as Henry Evans, was arrested on board this morning, on suspicion of being the person who caused the explosion.

GEORGIA.

ATLANTA, July 18.—The House of Representatives to-day voted to instruct the Judiciary Committee to prepare articles of impeachment against Comptroller-General Goldsmith, based on the report of a committee of the General Assembly, which has been investigating the transfer of titles to wild lands. The grounds of the impeachment will involve Hinton P. Wright, friend of the Comptroller, who offered to bribe two members of the Legislature.

Eulogies upon Col. Alston were pronounced in the Legislature to-day. James V. Nethers, of Union, S. C., to-day committed suicide by putting his head on the railroad track and letting a train run over him.

MACON, GA., July 19.—A fire here yesterday morning destroyed the establishments of Henry Schall, dealer in shoes, Hunt, Rankin & Lamar, wholesale drugs, and C. H. Rogers & Co., wholesale grocers. The losses are Schall, \$50,000, insured. Hunter, Rankin & Lamar, \$45,000, insured for \$28,000; Rogers & Co., \$40,000, insurance, \$30,000. All have resumed business. The fire was of incendiary origin.

LOUISIANA.

NEW ORLEANS, July 18.—The State debt question was brought up in the Convention at noon to-day. The ordinance, as adopted yesterday, was read the third time and a vote taken: Yeas, 62; nays, 51. The Chair decided that the ordinance was defeated, not having received the necessary 68 votes, a majority of the whole Convention. An appeal from the decision of the Chair was made on the ground that this ordinance, not being a part of the Constitution until it was adopted by a separate vote of the people, it required only a majority vote in the Convention. The appeal was tabled. It was then claimed that the Democratic party would be held responsible by the people for the solution of the debt question, and the Convention took a recess until 7:30 p. m., to allow the Democrats to deliberate in caucus. The question will probably be settled to-night.

The Tournament.

From the Atlanta Constitution of the 17th inst., we clip the following:

"The alert ball club of Atlanta, ever alert upon the subject of the national game, have arranged for a base ball tournament which will take place at Oglethorpe Park, in this city, commencing Saturday, July 25, and lasting two days. The club has sent out several letters to the leading base ball clubs of this section, and some of them have written that they will be on hand. Others are in correspondence with the Alerts with a view of coming and entering in the tournament. The Alerts of Greensboro, will be among the contesting clubs. A letter was received from the Reds of Knoxville, yesterday stating that they would be here and that they desired that board would be secured in advance for the club and a number of friends who will accompany the members on their visit to Atlanta. The Reds are the acknowledged champions of Tennessee, and will doubtless play a fine game in the coming tournament. The 'Seals,' of Fairburn, have also written that their club will be here and enter in the contest. The 'Lightfoots,' of Griffin, 'Tom Forts,' of Chattanooga, and a Covington nine are also expected. These clubs, with the 'Alerts,' of Atlanta, will make a fine show."

"The first game of the expected tournament, will be played Saturday morning, and the playing will be continued from that time until the contest is decided. The winning club will get two-thirds of the gate money, and the club playing the second best game will get the remaining third."

"The tournament will doubtless be hotly contested by every club, and some fine sport may be expected. The Alerts have already settled down to work in a business-like manner, and feel confident that they will at least have the second money if they do not get the first, which they are determined to play for."

SOUTHERN ROADS.

Great Activity Among Them for Steamer Connections.

Special dispatch to the Cincinnati Gazette.

ATLANTA, GA., July 17.—There is considerable activity in railroad circles through this section. Wm. B. Astor, at the head of the New York and Boston Company, has offered Georgia one million and a quarter of dollars for the Macon and Brunswick. If they can buy this road they will put on a line of steamers at Brunswick, plying for South American ports especially. The general idea is to develop a South American trade, and the special idea is to give Jacksonville, Fla., where Mr. Astor has just invested \$300,000, a convenient port. If they buy the M. & B. road they will continue it to Atlanta, thus flank the Georgia Central, which now controls from Atlanta southward.

Another New York Company offers to lease this road, and the proposition is that the State shall take the lease bonds and build the road to Atlanta, and develop Brunswick as a port.

A bill is in the Legislature to sell the W. & A. Railroad, now in the hands of lessees. The price is \$6,000,000. Embassadors have just left Port Royal for Europe, at the call of European capitalists, armed with power from the roads running from Louisville to Port Royal to guarantee competing rates with Northern roads for bringing Western crops to the coast, if a line of steamers is put on at Port Royal. It is thought this movement will succeed in the establishment of a line.

The link of road from Hendersonville, N. C., to Asheville, N. C., twenty-one miles, is being rapidly graded. This will connect the East Tennessee system of roads, cutting at Morristown with the Carolina system, cutting at Spartanburg, with the Knoxville branch of the Louisville & Nashville built, and a branch from the Cincinnati Southern to Knoxville. This will give those lines into the Columbus and Upper Georgia, and to Charleston and Wilmington. The Georgia Western Road running due west from Atlanta, cutting the Alabama coal fields, and joining the South and North road near the Alabama line, has been revived, and will be built. A company of Boston men are having a survey made of the line, having an unofficial guaranty of a bonus of \$100,000 from Atlanta if they will complete the road. It is now graded forty miles.

A board of three Railroad Commissioners with power to adjust freights and shape all legislation on railroads was agreed on by the legislature on railroads to-day.

JACKSONVILLE, FLA., July 18.—In the city election yesterday the entire Republican ticket succeeded by over a hundred majority.

Quarantining.

MR. EDITOR: Quarantine, as against yellow fever, is getting to be a question of importance. It is a question appealing to the best feelings of humanity, and, plainly put, will strike the truly Christian heart as a voice from God Himself, asking what of thy brother? Shall thy neighbor, thy kinsman, may be, bone of thy bone, and flesh of thy flesh, be denied an asylum because he has fled from a pestiferous air, which it is impossible for him to carry with him? Shall the offices of humanity be withheld on an assumption of truth, in a proposition, which has been again and again disproven?

The humanitarian is trembling more for the results of absolute measures, which men will be guilty of under the teachings of the possible transportation of yellow fever, than from any fear of that fever being propagated in a locality incapable of originating it. And the Christian had better go to his closet, and devoutly ask for guidance in this emergency, lest, perchance, he be led from confidence in unsond doctrine, to place himself in a position where his brother's blood will cry aloud against him.

I speak whereof I know. For two hundred years the yellow fever has been under observation, and they approach a unit against the dogma of propagation at a locality incapable of originating it,—are all capable of originating it,—are all most a unit against the possibility of its transportability from the atmosphere of the locality in which it originates.

I beg you to publish this, my professional protest, against so untenable a doctrine, and my imploring to sensible people to look at the questions involved in the same conservative manner which they would give to a matter of business in which they were concerned more than any one.

FRANK A. RAMSEY, M. D.

Yesterday morning, July 18, 1879, at her residence in West Knoxville, of consumption, Mrs. E. M. Houk, wife of the Hon. L. C. Houk.
